Key Observations:

- The sender attempted misdirection by hiding their IP. The claimed domain (so254-36.mailgun.net) does not exist.
- The email appears to be from *newsletter@axence.net*, which is likely spoofed.
- The originating IP **198.61.254.36** is registered to Rackspace and geolocated to Australia.
- SPF and DKIM passed, but headers indicate potential misuse via Mailgun.
- This strongly suggests the message is **malicious or spam** and should not be trusted.
